

A transparent Cabochon on a cut-out Design in a Brooch

This little brooch back is slightly concave and a cabochon fits inside the hollow. The hollow is decorated with a glued-on, cut-out design. A transparent cabochon is placed on top and pushed on securely.

01

Cut a design same size as the small hollow on the brooch. Glue on the design and push the transparent cabochon on top. NB: you may want to attach the cabochon securely with glue.
