

Decoratieve kussen van katoenstof

Deze kussenhoezen zijn gemaakt van hoge kwaliteit, 100% katoenstof. De dessin stoffen zijn ontworpen door Glad Design.

Cut two 45 x 45 cm pieces to make each cushion cover. Make a 1.5 cm fold on the bottom of each of the two squares. This side will be the cover's opening. (Fold the fabric from the outer side onto the inner side and iron.

Sew the three sides together with a seam of approx. 1 cm from the edge. At the fold at the bottom you may sew a small section from each side using the sewing machine. Leave an opening for the stuffed pillow. See the last step.

Turn the cover inside out, press it with an iron and insert the pillow. Sew the opening together by hand with small stitches using a needle and thread.

Assemble the two squares - outer side against outer side. Secure the three sides with pins (not the fourth side which has the fold).

Before turning the cushion cover inside out, cut off the corners at the opposite end of the fold.
