Houten vogel met kleine houten schijven

Deze houten vogel is geveerd met Plus Color Acrylverf. Na het drogen, zijn kleine houten schijven met bast op de vogel gelijmd.

Paint the bird all over with Plus Color craft paint and leave to dry. You may use a Uni Posca marker for decorating the beak and for drawing eyes.

Glue small wooden discs with bark onto the the bird using Clear Multi Glue Gel. Leave to dry.
