

A Happy Moments Greeting Card with a Rocaille Seed Bead Flower

v13978

A piece of white card is attached to the front of this Happy Moments greeting card with matching envelope. It is decorated further with a written text and a glued-on flower made from rocaille seed beads on a piece of silver floral wire.

Hoe werkt het

1. Cut a 8.5 x 13cm piece of white card. Cut a piece of silver floral wire for the stem. Push the wire through the front of the card and secure it on the back with a piece of sticky tape. Thread beads onto the wire. Push the wire through to the back and secure with a piece of sticky tape.

2. Make leaves by threading beads onto the wire. Shape it into a leaf and attach it onto the piece of card, close to the stem, using the same procedure as described above.

3. Make the petals one by one using the same procedure as the one described when making the leaf. Fix the petals onto the stamen in the middle. A total of approx. 50cm of wire is needed for this.

4. Use a fine marker pen for writing the text.

5. Attach the piece of card onto the front of the greeting card with double-sided adhesive tape.
