

Clown op stok

Deze schattige clown, die zich kan verstoppen in een kegel van papier-mâché, is gemaakt van een polymeer klei hoofd en handen van witte stof gedecoreerd met textielverf.

Inspiration: 1160

1

Cut off the tip of the cone, so a flower stick fits through it.

2

Paint the cone.

3

Sharpen the flower stick.

4

Paint the flower stick and the stand.

5

Paint the clown's nose.

6

Cut out the suit, make dots with a stencil and let it dry.

7

Attach Power Tape to the sleeves – on the inside and fold.

8

-

9

Attach power tape along the side of the suit – on the outer side, place the hands inside and close the suit.

10

-

11

-

12

Turn the suit inside out.

13

-

14

Fold the painted collar and stitch it together.

15

-

16

Use a glue gun for attaching pom-poms onto the collar and for attaching hair and the collar onto the clown's head.

17

-

18

Glue the stand onto the stick. Push the stick into the inside of the cone through the hole and put on the suit with the stick sticking through. Glue the suit onto the stick.

19

20

21

Put the suit onto the outside of the cone, fold it up and glue it on securely.

22

23

Glue the head onto the stick.
