

Grappige clowns

Geboetseerd van zelfhardende klei, een hoofd van keramiek en geverfd met A-Color Metallic verf.

Inspiration: 1128

1

Make a fun clay body, attach the head, hands and ceramic boots and the figure becomes alive. Chenille (pipe cleaners) are used as hair.

2

-

3

The pictures show the method of making the clowns, but the clay body can be formed after the individual's own imagination.

The Hair and hat are glued on with a glue gun, buttons and beads are attached with a 3D-Liner. Paint the body and the hat - buttons and beads – before gluing on the parts and the hair. Enjoy.
