

Organiser gemaakt van vilt

v11342

Een trendy organiser om op te hangen aan de muur, genaaid van Harmony vilt met acryl garen.

Hoe werkt het

1
Draw and cut out as shown.

2
Fold the two sides and sew. This is where you can decide on the shape of the cylinder and how much V-shape you want it to have.

3
Draw and cut the base.

4
Sew in the base. Here we have used button stitch.

5
Cut a hole for hanging in the top of the organiser and sew in a ring for reinforcement.
