

Harten gemaakt van zelfhardende klei

v11748

Rol de zelfhardende klei dun uit. Steek de harten uit met de hartvormige uitsteekvormen. Laat drogen en vernis.

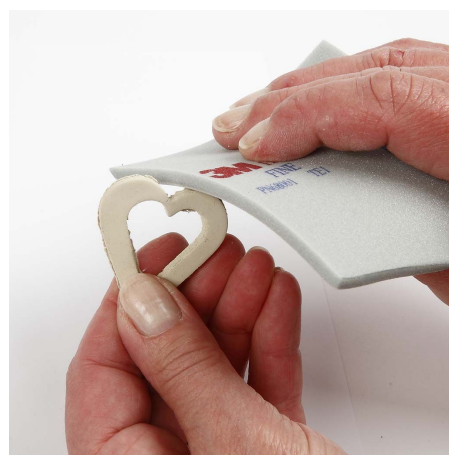

Hoe werkt het

- 1.**
Roll out the clay in approx. 2mm thickness.

- 2.**
Let them dry for approx. 24 hours and – if necessary - gently sand them along the edges using a sanding sponge.

- 3.**
Let them dry for approx. 24 hours and – if necessary - gently sand them along the edges using a sanding sponge.

- 4.**
Varnish both sides and let it dry.

- 5.**
Cut a piece of natural twine to your desired length and tie around the heart.
