

Clown gemaakt van ribbelkarton

v12371

Clowns gemaakt van ribbelkarton, katoenballen, chenille draad en tissuepapier.

Hoe werkt het

1.Draw a face on a compressed cotton ball using Colortime markers.

2. Make the body from a piece of rolled-up corrugated board. Use Dana super hobby glue to glue the body, the pipe cleaner arms and the head together.

Glue on the bow tie, buttons, hands and feet.

4.Double over a piece of tissue paper and push or scrunch it together around a flower stick.

5. Partly cut open the compressed tissue paper to make hair.

Glue the tissue paper onto the cotton ball for the clown's hair.
