

Pressepapier van glas

Vivi Gade Design papier is uitgeknipt en gelijmd aan de achterkant van een glazen hart met decoupage lijmlak voor glas en porselein.

Inspiration: 12623

1.

Cut out the flower design from Vivi Gade Design Paper.

2.

Apply a coat of decoupage lacquer on the front of the flower design.

3.

Attach the flower design underneath the glass heart; i.e. the front of the design onto the back of the heart.

4.

The design paper is double-sided. Use the glass heart as a template and trim the reverse according to the glass heart.

5.

Write text on the design paper with a permanent marker pen, f.ex. Edding 400. Glue the design paper onto the flower design. Also apply lacquer onto the reverse of the heart. May be fixed in an oven at 160°C for 30 min. for added protection to the decoration.
