

## Een T-shirt gedecoreerd met Neon Textil Color

v13016

Een T-shirt en zonnehoed zijn gedecoreerd met Neon Textil Color verf. De print op het T-shirt is gemaakt door zwarte Textil Color verf met een verroller aan te brengen over een screen stencil.

### *Hoe werkt het*

**1.** Put a newspaper or a piece of plastic inside the T-shirt, protecting the back in order to avoid smudging. Attach masking tape on the front chest area of the T-shirt, marking the area for the decoration.

**2.** Paint inside the masking tape area with Neon Textil Color fabric paint and a foam brush. Let it dry.

**3.** Place the screen stencil on top of the T-shirt with the adhesive side facing down onto the T-shirt – and press it down, attaching it firmly.

**4.** Saturate the paint roller with black fabric paint and gently roll over the screen stencil.

**5.** Remove the screen stencil and wash it in lukewarm water immediately.

**6.** Remove the masking tape. You may outline the frame around the print using a black Textile Marker.

**7.**  
Fix the paint with an iron for approx. 5 minutes.  
Use a cotton setting on the iron and put baking  
paper over the print before fixing with an iron.
