**1.**

Fold-yourself box: Follow the folding instructions on the packaging of the fold-yourself box. Print a photo of the celebrated person and glue it onto the box lid. You may put a small treat inside the box. Tie a piece of pink cord around the box or the box lid as shown in the picture.

**2.**

Artificial liquorice allsorts: Use a rolling pin for rolling out three pieces of Silk Clay so they are flat. Use white, pink, and black Silk Clay. NB: roll out the black Silk Clay so that it is the thinnest/flattest of the three.

**3.**

Arrange the three flat pieces of Silk Clay in layers with the black in the middle. Roll lightly with the rolling pin.

**4.**

Cut the liquorice allsorts into squares; first in long rows and then into squares. You may push each individual square into shape. NB: three colours, each 40g make approx. 20 squares of artificial liquorice allsorts.

**5.**

Liquorice allsorts (continued): roll small uniform Foam Clay balls and push them flat.

**Another variant**

Artificial mimosa flowers made from small Foam Clay balls which are pushed onto bare branches or branches with green leaves as an alternative to natural flowering branches.
