

Servetten Decoupage op papier-mâché

v1673

Geverfd met Plus Color acrylverf en gedecoreerd met servetten.

hoe werkt het

1

Paint the papier-mâché article with Plus Color Craft Paint – choose a light colour otherwise the napkin motif tends to disappear easily.

2

Cut out the napkin motif and only use the top layer of the napkin.

3

Brush the papier-mâché article with decoupage lacquer, attach the motif and gently brush with decoupage lacquer on top of the motif.

4

If necessary you may use a piece of card to smooth down any creases in the napkin. Be cautious as the napkin is very fragile.
