

Dekbedhoes en kussensloop voor babybed

v14600

Dekbedhoes en kussensloop zijn gemaakt van katoenstof met dessins ontworpen door Glad Design.

Hoe werkt het

1

Duvet cover: Cut a 70 x 103 cm piece of patterned fabric and a 70 x 113 cm piece of plain fabric. Pillow case: Cut a 48 x 42 cm piece of patterned fabric and a 48 x 52 cm piece of plain fabric. For the duvet cover and the pillow case: Make a 1 cm seam on the narrow side (that will be the opening) and sew. Place the two pieces of fabric together, outer side against outer side with the edges in the same direction. Fold the longer piece up over the other piece. Sew along the other three sides. Finish with zig-zag stitches along the edges. Turn inside out.
