

Apothekers flessen gedecoreerd met glasverf

v14835

Deze apothekers flessen zijn gedecoreerd met frosted en transparante glasverf. De flessen zijn gefixeerd in de ovenop 160°C voor 45 minutes.

Hoe werkt het

1
Wash the pharmacy bottle. Attach a piece of masking tape for to divide the bottle when it is completely dry.

2
Mix brilliant green and black (approx. 50/50) for the desired green colour.

3
Dab the mixed paint onto the bottom part of the bottle. It is important to work in an even fashion to avoid edges.

4
Remove the masking tape when the paint is completely dry. Now dab the frosty green paint onto the top half of the bottle. Fix the bottle in the oven at 160°C for 45 minutes. The bottle can now be wiped gently with a damp cloth.
