

## Decoupage op porselein

Veel porseleine producten lenen zich goed om te decoreren met transparant decoupage papier, tissue papier, servetten enz. Gebruik decoupage lijm lak voor glas & porselein voor het beste resultaat. Na fixeren in de oven kan het gedecoreerde porselein worden afgenomen met een vochtige doek.

Apply decoupage lacquer for glass and porcelain with a brush. Attach small paper cut-outs on top of the decoupage lacquer. Smooth with the brush from the middle and outwards to avoid air bubbles. Leave to dry.

**2**

Fix the decorated porcelain item in the oven (not a fan oven) at 160°C for 30 minutes to toughen the surface so that it may be wiped with a damp cloth.

A TIP: Decoupage on porcelain is most successful with thin types of paper, such as tissue paper, transparent decoupage paper as well as napkins (using only the top layer of the napkin).
