

Silhouet stad van karton en glitterpapier

v14989

Deze silhouet stad is geknipt van karton en gedecoreerd met glitter en vellum papier.

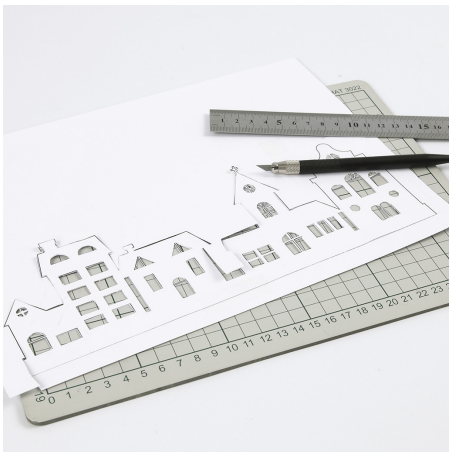

Hoe werkt het

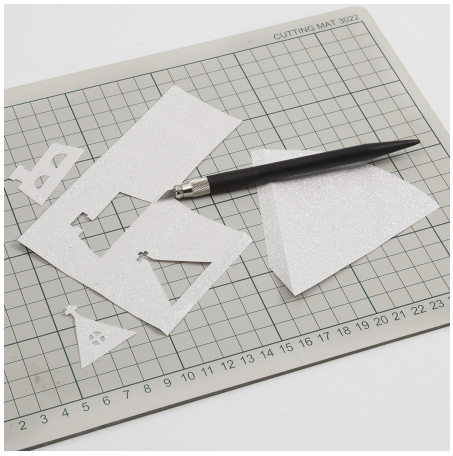

1
Attach the template onto the white card. Cut through both layers simultaneously.

2
First cut out all the windows using a fine art knife. Take care when cutting out the narrow window bars.

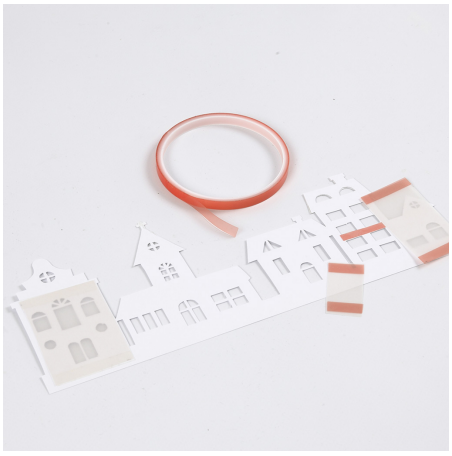

3
Cut out the outline and finally the base.

4
Cut out the roofs and a cone-shaped tree from glitter paper.

5
Glue the cone together and attach the cut-out roofs onto the white card using power tape.

6
Cut out vellum paper for the back of some of the windows and attach with power tape.
