Hoe werkt het

1
Cut a 7 x 12 cm piece of white paper and a 8 x 13 piece of pink card. Emboss the white piece of paper in an embossing folder placed between base plate B and embossing plate E.

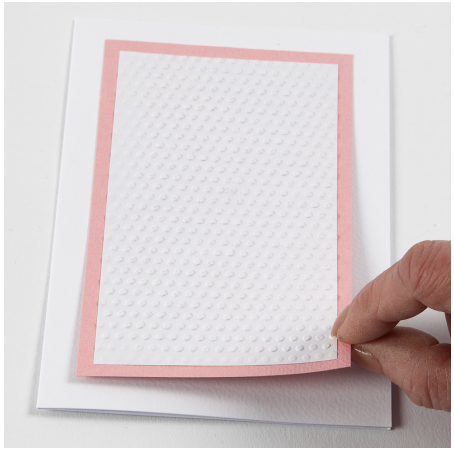

2
Attach double-sided adhesive tape along the edges of the embossed white piece of paper.

3
Attach the paper onto the piece of pink card.

4
Attach double-sided adhesive tape along the edges on the back of the pink card.

5
Attach the pink card onto the front of the white greeting card.

6
Punch out balloons from card and vellum paper using cutting plate C underneath + card + dies + base plate B on top.

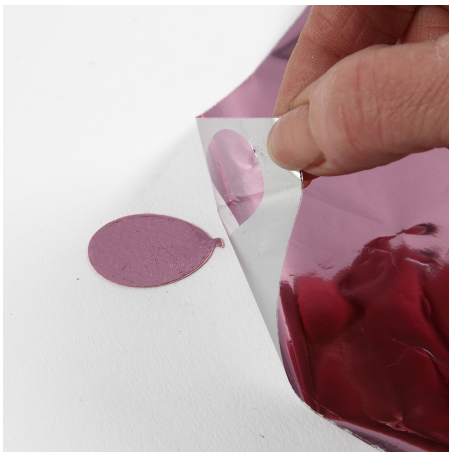

7
Attach double-sided foil tape onto the card and punch out balloons in different sizes and materials using cutting plate C underneath + card and double- sided foil tape + die + base plate B on top.

8
Remove the protective paper layer from the other side of the sticky double-sided foil tape.

9
Place the deco foil on top and rub hard to attach it onto the sticky foil tape.

10
Carefully remove the sheet of deco foil. If the deco foil has not transferred completely or if there are any bumps or unevenness, just rub on some more deco foil.

11
Attach some of the balloons onto the front of the menu card with 3D foam pads. Draw balloon strings with a thin marker. Tie a bow from cotton cord and attach it onto the invitation card with double-sided adhesive tape.

12
Decorate with rhinestones.
