

Uitnodiging met katoenkoord en geponste bloemen

v15339

Deze uitnodiging met kartonnen kaft, een geponste bloem en strass is gesloten met katoenkoord.

Hoe werkt het

Punch out a card flower.

Score between the petals and along the middle of the petals using a bone folder. Slightly fold along the score lines to give the flower a 3D effect.

Print out the template available as an attached PDF file on this page and cut out four pieces of card; two pieces of each colour.

Attach these four pieces of card onto the front of a greeting card using double-sided adhesive tape as illustrated in the photo.

Print out a photo and attach on top of the four opened-up pieces of card using double-sided adhesive tape.

Attach a rhinestone in the middle of the flower.

Print text and attach it inside the greeting card with double-sided adhesive tape. Tie a piece of cotton cord around the invitation card and attach the flower with a 3D foam pad.
